WORK EXPERIENCE

web Development Intern Intexm Media pvt ltd	June 2024 - July2024 <i>Vishakapatnam, India [on-site]</i>
- Worked on E-commerce website using HTML, CSS, Bootstrap, JavaScript, PHP. - Involved in designing, building & optimizing pages, with performance and user experience in mind. - Followed Figma for UI interface, Bootstrap for responsiveness and Git for version control.	

PROJECTS

- Mega Mall | E-Commerce Website** - HTML, CSS, Bootstrap, JavaScript, PHP, MySQL
Developed "Mega Mall," an e-commerce platform using HTML, CSS, JavaScript, Bootstrap, PHP, and MySQL. The platform includes secure user authorization, seamless purchasing with efficient cart management, and an intuitive admin panel for product uploads and deletions. It features a responsive design for consistent user experience across devices. MySQL ensures robust and reliable database management for user and transaction data.
- EAPCET College Finder** — HTML, CSS, Bootstrap, PHP, MySQL
Built a responsive website EAPCET College Finder is a user-friendly website designed to help students find the best engineering colleges based on their EAPCET rank, caste, and gender. Developed with HTML, CSS, MySQL, and PHP, the platform streamlines the college search process by offering personalized results that match the user's specific criteria.
- Personalized Music Playlist** — HTML, CSS, Bootstrap, JavaScript
Created a music website where users can enjoy music tailored to their preferences, with categories divided into Morning, Evening, and Night. The platform offers a seamless listening experience, allowing users to select their favorite tracks based on the time of day. Designed with an intuitive interface, the website enhances the user's music journey by providing personalized playlists for different moods and moments throughout the day.

ACHIEVEMENTS

- Earned a Java Programming certificate from Coursera
- Acquired a certification in Modern C++ Programming from NPTEL

STRENGTHS & HOBBIES

- Strengths:** Problem-Solving Skills, Quick Learner, Leadership Qualities and positive mindset.
- Hobbies:** coding and competitive programming, open source Contributions and cooking.
